

# HAYAT KHAN

Senior Flutter Developer

Karachi, Pakistan • hayatflutter@gmail.com • pub.dev/u/hayatflutter • github.com/hayatflutter • Open to Remote / Contract / Full-Time

## SUMMARY

Senior Flutter Developer with 3+ years shipping **20+ production apps** across social media, ride-sharing, PropTech, and enterprise — all live on the App Store and Play Store. Expert in **Clean Architecture, BLoC, and Riverpod**. Named **Employee of the Year 2024** at LaunchBox; promoted twice in under two years. Author of open-source packages **Pagy** and **App Logger** on pub.dev.

## EXPERIENCE

### Senior Flutter Developer — Dexnive

Jan 2026 – Present

Karachi, On-site

- Lead mobile development with Flutter + Clean Architecture, delivering scalable codebases on schedule.
- Architect reusable component libraries and internal packages, cutting duplicate boilerplate across projects.
- Mentor junior developers on Clean Architecture, BLoC patterns, and testing best practices.

### Flutter Developer (Intern → Junior → Mid-Level) — LaunchBox Pakistan

Feb 2024 – Jan 2026

Karachi, On-site • **Employee of the Year 2024** • **2 promotions in <2 years**

- Integrated Stripe payments, Agora video/voice calling, WebSocket real-time chat, and Firebase across multiple live products.
- Implemented dual-role architectures (driver/rider, tenant/landlord) with role-based access control serving thousands of users.
- Owned the full release lifecycle — architecture through App Store and Play Store submission and post-launch monitoring.

#### Key Projects

##### Chubb's Army — Pet Social Media App (Live on Play Store)

TikTok-style reel creation & feed, social profiles, follower system, analytics dashboard, and gamified video challenges with pet ranking and Paw Boosts.

##### FareShare — Ride-Sharing App

Dual UI for drivers & riders with socket-based live ride booking, real-time GPS, in-app WebSocket chat, scheduling, and in-app purchases.

##### Starlit — Dating App

User matching, real-time chat, live mini-games, and Agora video & voice calls. Clean Architecture for modular, long-term scalability.

##### Deposits Back — PropTech Platform

Stripe payments, credit score tracking, secure in-app chat, and RevenueCat subscription flows for tenant-landlord property management.

##### Rentibles / Nykn / Supertec Office

QR-based rental pickup/drop-off with media evidence; Google Maps + Stripe city guide; enterprise attendance, payroll & Firebase real-time comms.

### Flutter Developer — DIDX Inc.

Sep 2023 – Feb 2024

Karachi, On-site

- Built an end-to-end Office Management System — check-in/out, attendance, salary automation, deductions, and leave handling.
- Developed a team collaboration app with real-time Firebase location tracking and push notifications.

## OPEN-SOURCE (pub.dev)

|                   |   |
|-------------------|---|
| <b>Pagy</b>       | Lightweight Flutter pagination — infinite-scroll & page-based navigation with minimal boilerplate. Actively maintained. |
| <b>App Logger</b> | Structured logging utility with log levels & filtering — improves debugging and production monitoring.                  |

## SKILLS

---

|                     |  |
|---------------------|--|
| <b>Mobile</b>       | Flutter, Dart, Android (native), iOS, cross-platform development           |
| <b>State Mgmt</b>   | BLoC, Riverpod, GetX, Provider, ChangeNotifier                             |
| <b>Backend</b>      | Firebase (Auth, Firestore, Realtime DB, FCM), REST APIs, WebSockets        |
| <b>Payments</b>     | Stripe SDK, In-App Purchases, RevenueCat, subscription flows               |
| <b>Real-Time</b>    | WebSockets, Socket.IO, Agora Video & Voice Calls, Firebase Realtime        |
| <b>Architecture</b> | Clean Architecture, DDD, SOLID principles, feature-based modular structure |
| <b>Tools</b>        | Git, GitHub, VS Code, Android Studio, Flutter DevTools, Postman, CI/CD     |
| <b>Stores</b>       | Google Play Store & Apple App Store — full deployment & release management |

## EDUCATION

---

|  |                |
|--|----------------|
| <b>BS Computer Science (In Progress, exp. 2027) — Virtual University of Pakistan</b>   | 2024 – Present |
| <i>Data structures, algorithms, software engineering, computer networks.</i>           |                |
| <b>Intermediate in Commerce — Govt. Degree Science &amp; Commerce College, Karachi</b> | Feb 2023       |
| <i>Accounting, Business Studies, Economics.</i>  |                |
